There are pieces among the silver Coins (Bolivian and Peruvian Pieces), which in many cases, fall short in weight or fineness, and are not worth what the full weight and standard pieces are. These we have quoted low, to meet the value of the depreciated pieces. Some doubt has been expressed as to the purity of the late issues from the Belgian Mint. We have, therefore, omitted to note their standard fineness.

REMARKS.

When Gold Coins have been clipped, or made light by any other process, the following will enable you to ascertain their value—the test is with American Silver:—

Half Eagle is equal in weight to*.....31½ cents of silver.

Sovereign is equal in weight to.....30 cents of silver.

Napoleon is a shade lighter than.....25 cents of silver.

X Thaler is a shade lighter than.....50 cents of silver.

Ten Gilder is equal in weight to.....25 cents of silver.

Doubloon is equal in weight to.....100 cents of silver.

*An American quarter and a fair Spanish sixpence.

Those Coins used in Commerce, such as Sovereigns, 20 Franc Pieces, X Thalers, Spanish and Patriot Doubloons and Dollars, &c., will of course fluctuate, with the difference between demand and supply. Their quotation in this book can only correspond with their value in trade, and what they are actually worth in passing from hand to hand.

It will be perceived that we have reduced the quotations to the Gold Coins of Central America. Pieces dated 1850, of reduced fineness, and consequently of less value, have recently made their appearance. From the close resemblance of the Austrian Half Soverain and Ducat, persons have mistaken the one for the other, and in order to prevent mistakes in future, we have placed them side by side on page 7.

AMERICAN GOLD COIN TEST SCALE.

I am now prepared to furnish the "COUNTERFEIT and SWEATED GOLD COIN DETECTOR," an article of the first importance to Bankers and Brokers, and all others receiving Gold Coins. The great increase of late in the emission of spurious Coins and "Sweated" genuine pieces, has rendered our Gold Coins objectionable to many, and thrown a doubt even on the genuine issue. This "Test Scale," by its ready detection of the Spurious or Sweated Coin, will be of incalculable value to all parties receiving Gold Coins, while it will go far towards restoring confidence in our national issue. PRICE \$1.86, including postage. Address
